Winery Destroyed

Fire at an early hour last Friday
morning gutted the large stone
winery of Frank Cassini on the
Santa Rosa road near Rincon Val-
ley. The loss is estimated to be
in the neighborhood of \$20,000.

The property was insured for
\$10,000. All the cooerage and
some 25,000 gallons of wine were
destroyed. As there was no fire
in the building the only explana-
tion offered as the origin of the
blaze is that the burning stick of a
skyrrocket may have alighted on
the roof.

Thousands of people are daily
suffering with kidney and bladder
troubles—dangerous ailments that
should be checked promptly. De-
Witt's Kidney and Bladder pills
are the best remedy for backache,
weak kidneys, inflammation of the
bladder. Their action is prompt
and sure. A weeks treatment for
25c. Sold by L. S. Simmons.

Enjoyed Their Visit

A party of prominent young busi-
ness men of the metropolis, spent
a few days last week, including the
Fourth, in Sonoma Valley and en-
joyed its beauties and attractions
immensely. Trustee R. A. Mc-
Donnel, escorted the gentlemen
about this city and introduced
them to a number of our citizens
who gave them a hearty welcome.
They were delighted with the
hospitality of old Sonoma. Those
in the party were: J. E. Burke, F.
J. O'Neil, Chas. W. Oates, Steven
Dabovich, Jos. Cornin, Peter
Flaherty, W. B. Chase.

County Wins Suit

Superior Judge Emmet Seawell
handed down an opinion Friday,
July 5, in the interesting suit
brought by the county of Sonoma
against the Yulupa Land & Water
Company and others to condemn a
right of way for a road in the So-
nom Valley near El Verano across
the lands of the defendants.

The Court gives the county judg-
ment of condemnation and awards
the Yulupa Company \$42.80 for
the land taken and damages in the
sum of \$57.20 for the land not
taken. The Biggins heirs are
given \$26.40 for the land taken and
damages in the sum of \$55.60.

The court also finds that the sum
of \$450 will be needed to build the
fence required. The hundred dol-
lar award made by the Court to the
Yulupa Company is a similar
amount to that awarded by the
viewers. The Court in his opinion
calls attention to the diversity of
opinion regarding the value of the
land. District Attorney Lea and
Allison B. Ware were the attorneys
for the county.

Was in Poor Health For Years

Ira W. Kelley, of Mansfield, Pa.,
writes: "I was in poor health for
two years, suffering from kidney
and bladder trouble, and spent
considerable money consulting
physicians without obtaining any
marked benefit, but was cured by
Foley's Kidney Cure and I desire
to add my testimony that it may be
the cause of restoring the health of
others." Refuse substitutes. L.

THE BEAR FLAG

Address Made on July 14th, '07, at the Unveiling of the Bear Flag Monument in the Historic Plaza of Sonoma, by Mrs. R. P. Hill.

Mr. Mayor, Ladies and Gentlemen: In behalf of the Sonoma Valley Woman's Club, I have the honor to present to the City of Sonoma, this Tablet. It is in memory of an event, the influence of which is inestimable and imperishable.

A modern writer has said 'no people was ever born so indifferent to history and experience as the people of the United States.' If this be true, we may find reasons on every hand. Our forefathers came to make history in that freedom which they recognized as an unperishable aspiration in every human soul.

Our fathers' indifference to history and experience may be found in that we are not a race, but a composite people. We have the gaiety of the French, the philosophy of the German, the thrift of the Dutch, the steadiness and stubbornness of the English, the poesy and imagination of the Italian, the sentiment of the Spaniard, with the air of every race, like a dish of condiment, energized in the air of freedom, that varies from a gentle zephyr to a fierce gale, and this is an American.

We are indifferent to history because as a people, we have not been indifferent to our ideals; for no nation can be great without lofty ideals which it upbears like a consecrated banner. We have never acquired, but to make fertile the barren, or to hasten the march of civilization.

The people of this community have never been indifferent to its local history. Nations had arisen many times before. Barbarians were conquered; civilization had been partially overthrown by semi or wholly barbaric invasions, dynasties rose and fell; but never before did such a handful of men conquer a nation, as when of the 14th of June, 1846, a party of Americans, (mostly from Napa Valley,) without a leader, gathered, and took Sonoma, a fortified town, and hoisted over the city the standard of the California Republic. This standard has been known ever since to history as the Bear Flag.

The act may have been premature, but there was apparently every need for the men to strike for their homes and to help bring about what they hoped would be a better state of affairs. That their intentions were of the highest, we can judge from the following incident.

When the flag had been raised, a single man cried out, "Let us divide the spoils!" but one universal frown made him shrink from the prospect of honest men, and from that time forward, no man dared to hint anything like violating the sanctity of a private house, or touching private property, and so we of to-day and the generations yet to come, can look back with pleasure upon the beginning of a revolution carried on upon principles high and holy as the laws of eternal justice.

Of the events leading up to this period, I will not dwell, for the occurrences of those yesterdays are the conversations of our to-days. But of the flag itself—of its materials, and of how and where they were obtained, I quote from the following description.

The pioneer does not remember who furnished the cotton, but cotton was plentiful. Red flannel was very scarce. However, Mrs. J. Grigsby and Mrs. W. B. Elliott

furnished the red flannel. The latter supplied all she could from a red petticoat and Mrs. Grigsby the remainder, taking the flannel from the wardrobe she was preparing for her unborn babe. The flag was made in the front room of the barracks, the sewing was done by Mr. Davell and the bear and stars painted by Mr. Todd. The colors red, white and blue, were used because they were the colors of the United States flag. The bear was selected because it represented the strongest animal found in this section. The language of the flag was, "A bear stands his ground always, and as long as the stars shine, we stand for the cause."

The flag was not a work of art, but it stood for the grandest sentiment which can inspire men to noble thoughts and deeds; it stood for Liberty.

With the hoisting of the flag an accomplished fact, it was but natural that these men should desire to be known as something else than a mere band of filibusters, and they supplemented the declaration which the Bear Flag itself made, with a proclamation to all persons and citizens of Sonoma and the country around, requesting them to remain at peace and to follow their rightful occupations without fear or protestation. And so the flag with its bear and stars, was hung to the breeze from this old flag pole sixty-one years ago. The bear we still find on our State flag. The stars some four years later we gave to Old Glory, making the 31st star on that dear flag and surely no star is so bright.

The women of this valley realizing "So fit the works of men Back to the earth again Ancient and holy things Fade like a dream."

honor ourselves in paying homage to the memory of those pioneer men and women (and the unborn babe) in whose achievements and their endings we can trace the first beatings of the heart of this state and that in the magnificence of California to-day, we see the proud result of their victories.

All hail to the Bear Flag! All hail to the pioneers of the Bear Flag Days!

In a spirit of patriotism, friendship and abiding fidelity to the lofty purposes of the men and women of those days, we women, by this gift, would ever be a part.

The Saloon Ordinance

The new license ordinance proposed by the City of Sonoma is in substance as follows:

Section 1. It shall be unlawful for any person, firm, partnership, association or corporation to commence, engage in or carry on the business of selling or giving away any spirituous, vinous, malt, alcoholic, fermented, distilled or mixed liquors, in less quantities than one pint, to be drunk on the premises where sold, in any saloon, bar, inn, hotel, tavern, store, drugstore or other places within the corporate limits of the City of Sonoma, without having first procured a license therefor.

Section 2. No license called for herein or renewal of any license shall be issued except on the order of the Board of Trustees, duly passed and entered on the minutes.

Section 3. The application for a license or a renewal of a license shall be by a petition signed by the applicant, which shall state the place where and the building in which the applicant desires to commence, engage in or carry on such business, and must be accompanied by the affidavit of the petitioner, stating that he will conduct an orderly and decent place and will comply with all the laws of the State of California and the Ordinances of the City of Sonoma, relating to the business of selling or giving away such liquors as aforesaid or keeping such place; that he will not at any time during the period covered by such license sell, furnish or give away, directly or indirectly, any intoxicating liquors to habitual drunkards, to those addicted to the inordinate use of such liquors, to Indians or minors under the age of eighteen years, or to any person evidently in an intoxicated condition; that he will not allow such persons or any of them to remain in his said place of business and will not permit any person under eighteen years of age to enter, loiter or remain therein or engage in any game therein, and will not permit any female to enter, loiter or remain in his said place of business, and that he will close up his said place of business at eleven o'clock, p. m., on each night during the year, nor open the same again during such night.

Section 4. Every such petition and affidavit, shall also be accompanied by a certificate signed by at least six persons who are owners of real property in said City of Sonoma and who resides within one-fourth of a mile of such proposed place, mentioned in the petition, setting forth that the petitioner for a license is a person of good moral character and a suitable and sober person to carry on and conduct such a place and that no person will suffer injury or damage hereby.

Section 5. No license shall issue, in any case, until such petition, affidavit and certificate have been filed with the Clerk passed upon

and approved by the Board of Trustees and the license ordered issued by said Board.

Section 6. Every person, firm, partnership, association or corporation to whom a license shall be ordered issued, shall before receiving the sum or being entitled to commence or carry on business thereunder, pay to the Marshal of the City of Sonoma, an annual license fee of one hundred and twenty dollars, in advance, and no license shall issue for shorter term than one year, and such license shall be dated the day the same is ordered issued by the Board, and the same shall begin to run from the date thereof.

Section 7. No license issued under the provisions of this ordinance shall be transferable or a license for any place except the one designated in the petition and described in the license. No rebate shall, under any circumstances or conditions, be granted to any person for any portion of any unexpired license; provided, that upon consent of the Board of Trustees first obtained, the place of business may be changed to any other location in said city.

Section 10. The Board of Trustees may refuse to issue or renew a license, for such reasons as may seem satisfactory to them, and their action in such case shall be final.

Section 11. The Board of Trustees may also, on written notice signed by the President of the Board and served upon the holder of a license by the Marshal, require him to appear before the Board not less than five days from the date of such service, at a time specified in such notice, and show cause, if any he have, why his license should not be revoked, and may revoke any license for any of the causes, to wit: violating any of the provisions of this Ordinance; the employment or frequent presence in the place of business affected, of any female, or females, minors under eighteen years of age, vagrants, intoxicated or disreputable persons; the allowance of gambling or dancing in the place of business affected; disorderly conduct or disturbance of the peace, arising in such place of business; or the loud or continuous playing of a musical instrument or instruments, disturbing the peace of the immediate neighborhood, is hereby declared to be a good cause for revoking any license; the selling or giving away of intoxicating liquors to habitual drunkards or those addicted to the inordinate use of intoxicating liquors, after receiving written notice from the City Marshal not to do so; the keeping open his place of business after eleven o'clock at night; or that the person affected is in any manner conducting his business in violation of any Ordinance of the City of Sonoma, or has failed in any respect to keep any promise made in the affidavit accompanying his application for a license; or for any other cause that may convince the Board of Trustees that the party in question is not a suitable person to conduct such a business.

Section 13. The business of selling intoxicating liquors in any quantity less than one pint where the same is to be drunk on the premises where sold, shall be dealt with as a separate business from any in which the owner or proprietor thereof may be engaged, nor shall a stock of liquors enumerated in Section 1 hereof, be in any wise considered to be a part of the general stock carried by any grocer or owner of any other business. Provided, that nothing herein obtained shall be construed to require a liquor license from druggists for selling liquors in quantities of not less than one pint for strictly medical purposes, or when kept and used in compound medicinal medicines.

Section 14. The place of business designated in each license issued hereunder is hereby defined to be and shall be construed to include all the premises rented or owned or under the control of the person conducting business under such license, and the provisions of this Ordinance shall apply to every part of such premises.

And it shall be unlawful for any minor under the age of eighteen years or any female to enter or remain in any restaurant or eating place connected or communicating with any saloon.

Section 15. It burns common Coal Oil (and not much of it, either) with a clean, blue hot, smokeless flame. It has no wick to bother with, like the old-fashioned, yellow flame, smoking and smelling Oil Stove. The "Quick Meal Wickless" was invented to enable ladies to do their cooking quickly and comfortably in a cool kitchen, and to prepare a "Quick Meal" and eat it in comfort. The "Quick Meal" drives drudgery from the kitchen and worry from the house; it sweetens temper and it lengthens sleep. "Quick Meal" Stoves make happy homes.

L. S. SIMMONS, The Prescription Druggist

Now Nature Provides.

OUR BEAUTY, HEALTH AND HAPPINESS.

Is it not possible for the body to be made of the elements contained in the earth, digested in the plant laboratory of nature and made ready for man or animal?

The medicinal virtues of many American plants and roots were known to the early Indians. These are not known to modern physicians as Calophyllum or Blue Cohosh was known to the Indians as "Snake root." Another, known to the Indians as "Rattlesnake root," is used in modern medicine as "Cimicifuga."

Prof. King's American Dispensary, an authority in these matters, says: "Our Indians set a high value on Rattlesnake root (Black Cohosh) in diseases of women. It is surpassed by no other drug in constipative conditions of the parts where there are dragging pains and tenderness."

After many years of study and experiment, Dr. Pierce's medical director of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., put up a prescription for the medicinal virtues of the two roots mentioned, together with Slippery Elm and Uterine root and Uterine root. This, there is no mystery in the make-up of this famous "Prescription." (The use of alcohol is

entirely avoided in its manufacture, chemically pure glycerine being found to serve the purpose of extracting and preserving the medicinal properties even better than alcohol.)

Learn the Truth. The one medicine for the cure of women's peculiar weaknesses and ailments, the ingredients of which are printed on the wrapper of every bottle leaving the great Laboratory in Buffalo, N. Y., where it is made, is called Dr. Pierce's FAVORITE PRESCRIPTION.

It Stands Alone not only in respect to its ingredients, but also as the only specific advertised remedy for women's diseases which absolutely contains no alcohol.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "Favorite Prescription" is made of such legitimate and after a working formula that has thousands of cures to its credit placing its merits above criticism.

It Stands Alone as Nature's cure for the diseases peculiar to women because the earth supplies the vegetable ingredients.

Mrs. Mary J. Beard (Trained Nurse, Washington Hospital, of 1705 9th Street, N. W., Washington, D. C.) writes: "I felt badly for four years, had terrible pains at times and was often unable to be about attending to my duties; appetite was poor and sleep bitter. Tried to cure myself in various ways without success, but finally my attention was called to Dr. Pierce's Favorite Prescription and decided to try it. I am certainly glad that I did for I received the first relief, and the cure was gradually becoming better until I was entirely cured. I am now a healthy woman. An well and enjoy life once more."

Dr. Pierce's Good temper is health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation, whether chronic or acute, sure and speedy, and once taken do not have to be taken again. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. By all druggists.

AN INDIAN LEGEND.

The Grandfather of All Mosquitoes and His Giant Descendants.

There are pretty big mosquitoes in the world, but if you go to true Indians, you will find that the size and strength since the days when this legend was believed by many tribes on Indians.

The grandfather of all mosquitoes lived in the neighborhood of Onondaga, N. Y. When he grew hungry he would walk forth and eat an Indian or two and pick his teeth with their ribs. The Indians had no arms that would prevail against this monster, so he called upon the holder of heavens to come down. Finding that he had not his match in this person, the mosquito flew away. He flew around the great lake, turned eastward, sought help from the witches that inhabited the Green lake and had reached Lake Onondaga when his pursuer came up and killed him.

As his blood poured forth on the sand each drop became a smaller mosquito. They gathered about the hold of the heavens and stung him so cruelly that he half repented the service he had rendered to the Indians.

The Tascorans say that two of the mosquitoes stood on opposite sides of the Seneca river and slew all who passed. Hiawatha killed them. A reservation stone marks the place where the holder rested during his chase, and tracks were still lately seen south of Syracuse alternated with the footprints of the mosquito. These footprints were shaped like a human foot and were twenty inches long. These marks were revered by the Indians for many years.—Brooklyn Eagle.

THE GOLD STANDARD.

England, in 1816, Was the First of the Nations to Adopt It.

The first nation to adopt the gold standard was England. She adopted the gold standard nominally in 1816 but practically in 1821. Three years later, for in 1816 England was on the paper basis. Germany, which adopted the single silver standard in 1857, took steps toward the establishment of the gold standard in 1871, but it was not until July, 1873, that she demonetized silver, undertook to melt down her silver coin, sell it for gold and establish the single gold standard. The Scandinavian nations adopted the single gold standard in 1873. Switzerland, Italy and Greece, and Spain suspended the coinage of silver and three years later entirely suspended such coinage, but have never undertaken to discard the silver coin she has in use or to treat it otherwise than as of an equality with gold. The action of France in restricting and then suspending the coinage of silver on private account was followed by the other nations of the Latin union—Belgium, Switzerland, Italy and Greece—and Spain suspended the coinage of silver in 1878. Holland, which had established the single silver standard in place of the bimetallic standard in 1847, suspended the coinage of silver in 1872 and opened her mints to the coinage of gold on private account in 1877.—Watson's Magazine.

Echoes From Horner's Skulls. These curious visits and turns superstitious tales are to be found in the introduction of horses' skulls in or about the church buildings in England and Scotland, the reason alleged being to help the sound in church. This habit is unquestionably a relic of heathenism where an animal was sacrificed. Some years ago, when an old meeting house in Edinburgh was pulled down, the sounding board space above the pulpit was found to be filled with horses' skulls. In some parts of Scotland there still exists the idea that if a horse's head is buried in a field there will be an echo.

Success in Society. The secret of success in society is a certain heartiness and sympathy. A man who is not happy in company can not find any word in his memory that will fit the occasion. A man who is happy there finds in every turn of the conversation occasions for the introduction of what he has to say. The favorites of society are able men and of more spirit than wit, who have no uncomfortable egotism, but who exactly fill the hour and company, contented and contenting.—Emerson.

An Artist's Whim. In the church of Tassow, in the government of Kurck, Russia, the altar is a painting of the last judgment, the foreground being a vivid representation of hell. Among the figures of lost souls a prominent position is occupied by Tolstoy, whose portrait presents a fairly good likeness. The painter's name is unknown, but that his work is appreciated is shown by the fact that the town authorities paid \$125 for the picture.

An Indicator. "But, doctor," asked the young practitioner, "why do you always order champagne for every new patient that comes to you?" "Because, my boy," replied the wise old medical man, "I can judge by what he says whether or not he can afford it. That helps when I come to make out my bill."—Philadelphia Press.

Driven From Home. "Did you hear that the daughter of that rich man in the next block had been driven from home?" "No. When did it happen?" "Just after she got into the carriage."—Baltimore American.

A Bad Read. "They say," murmured Mr. McSash, "that two heads are better than one, but I doubt it. If I had two heads, I would get this morning blamed if I wouldn't commit suicide."—Cleveland Leader.

Falling From the Sun to the Earth. The philosophers have figured out some queer problems since the time of Horatio, but none of them is more curious than that relating to the amount of time it would take for an object to fall from the sun or moon to our earth. It has been decided, after an immense amount of figuring, that if a body weighing a ton should fall from the sun it would take it ninety-nine years, nine months and two hours to reach the earth. The same body could make the trip from the moon to the earth in four and one-half days.

TOUGH PAPER.

Not an Easy Task to Twist a Bank Bill in Two.

"The paper that is used by the government in its currency is manufactured by a secret process and has characteristics with which the average man is not familiar," said a Minneapolis man.

"Recently I was in a small Minnesota town and witnessed an incident that concentrates this. A well-to-do farmer living in the vicinity came into the bank to transact some business. In the course of the conversation the cashier began twisting a five dollar bill. The farmer watched him with interest and finally asked the man back of the counter if he wasn't afraid of tearing the bill."

"There is an easy way for you to earn money," said the cashier. "There is a thousand dollar bill and I will give it to you if you will twist the bill in two. You are simply to twist it and not tear it."

"The farmer seemed dumfounded at first. He seemed awed at the thought of mutilating a thousand dollar bill. Upon further assurance by the cashier he started twisting it in the middle and twisted away for about five minutes being able to twist the bill in two. Finally he gave up, and he was certainly a surprised farmer. It is impossible to twist a bill in two, so firm and elastic is the paper used."—Exchange.

IMMUNE TO POISON.

Practical Methods of the Snake Charmers of the Orient.

For many years it was regarded as one of the basic Indian myths that the snake charmers of the Orient could encounter the cobra in an arena, allow the serpent to bite their time and again survive the deadly poison. This dangerous feat puzzled the doctors of the British army and was never quite understood by scientists abroad. By much within recent years, when the secret of these jugglers with fate leaked out. The last Indian snake charmer began at an early age to make himself immune from the venom of the cobra. He takes the fatal serpent and allows it to bite him. This injects into his system a very mild dose of the poison. He repeats the operation many times, and then ventures to allow the cobra to bite him. Gradually he permits himself to become acquainted with the venom of younger serpents until he has become so accustomed to the poison that his system is immune. By the time he grows up he has become so thoroughly accustomed to the spell that it is practically no effect upon him. It is like the drug habit and can work itself up to a pitch of enduring a dose that would be sufficient to kill most persons unaccustomed to the influence of the drug. Thus the seemingly audacious trick was exposed as a very practical thing, after all.

ORIGINAL NEW ENGLAND.

It is Said That It Was Located on the Pacific Coast.

There is a common saying that if the plain fathers had only landed on the Pacific coast a large portion of the Atlantic coast would never have been settled. Californians, Oregonians and Washingtonians believe this happily. In other words, the charms of the Pacific coast in the way of climate are so appreciated that having once experienced them, men are unwilling to live elsewhere contentedly. Now, not one man in a thousand living on the Pacific coast knows that as a matter of fact, the acquisition of New England was heard on the heavily settled far from San Francisco forty years before English was spoken on Plymouth rock.

More amusing still is the fact that the original New England was on the Pacific coast, for Sir Francis Drake in 1579, at the close of a month's stay, took possession of the country for his sovereign, Elizabeth, and named the new acquisition Nova Albion (New England) because he thought the white cliff near what is now Point Reyes resembled the chalk cliffs near Dover.—Alexander Meade in Outlook Magazine.
